ANTI-EXPANSIONISTS should read the story of Charles H. Clark, a St. Louis soldier who narrowly escaped being burned alive by the Filipinos. It was published in The St. Louis Republic, a Democratic paper, and affords striking proof of the utter unitness of the Filipinos for sell-government.

It sounds very pretty when one says that "the great common people" of Kentucky should be present in large numbers at the polling-places and at the meetings of the Election Boards to the meetings of the Election Boards to see that their votes are counted as they were cast. But it was for doing—or attempting to do—just this very thing that a fraudulent Contest Board at Frankfort threw out the entire vote of city of Louisville and of several the city of Louisville and of several counties throughout the state. And it was for going to Frankfort and hold-ing a peaceable and orderly meeting to protest against the robbery of their votes that the "mountaincers" have been denounced in such unmeasured terms. And the parties of Courts have decreed that the people can have no redress at their hands!

There is one method of ascertalining the magnitude of the cotton crop are unsatisfactory. There is one method of ascertalining there is one process—that of ginning—to which all cutton for any commercial or industrial use whatever must be subjected. If one could obtain from all the cotton gins of the country reports of the amount of taple they have turned out, the precise aggregate of the whole crop would be known to apply this process—in taking the twelfth census, the field work of which is to begin on June 1. An expert special agent has been appointed whose sale duty will be to obtain returns from all the ginning and balling establishments in the cotton-growing region.
